- loads 21:00 (approx.) from restaurant (stop at Shattuck and Center)

- **Wednesday, tbd**

Map of Bank of America (510) 273-5466

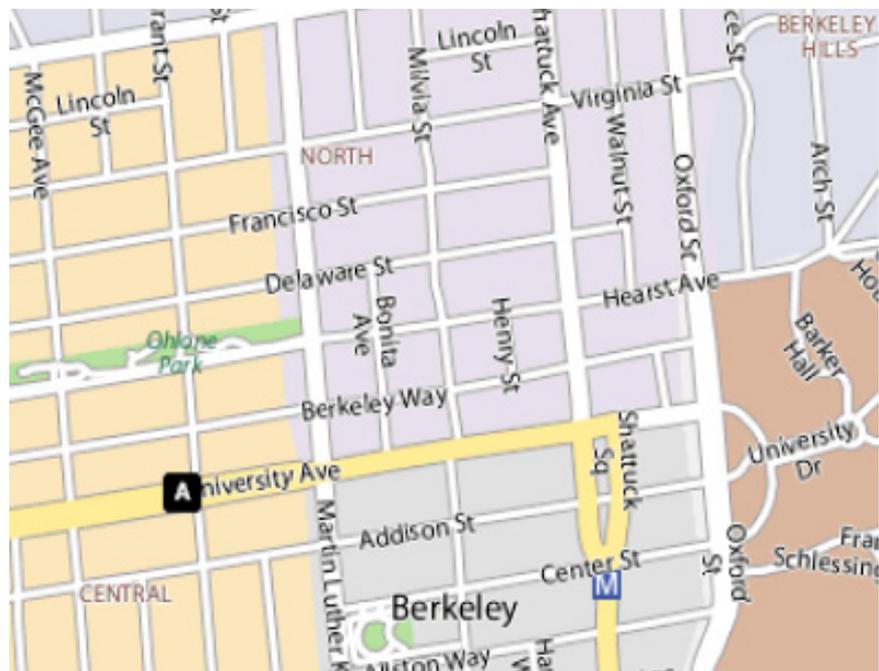

Lunch Today

- We will be bringing in sandwiches, salad, and drinks for those who ordered them (38 people)
 - there will be a limited number of vegetarian sandwiches for those who desire this option
 - if you ordered lunch, please pay (\$10) either to me or Wes Tabler at the morning break
 - please note that the **cost of the order comes from my personal funds**, not lab funds
 - **even if you have changed your mind, payment is due**
 - if you choose to go off-site, you will need to provide your own transportation
 - and be back here at 13:30 for the afternoon session

Working Dinner (1)

- The banquet will be at Cafe Venezia, 1799 University Avenue near Grant
 - street parking is possible, but not easy
 - dinner will begin at 19:00 and end at about 21:00
 - the bus will return people to the Hilton, and to downtown Berkeley if they do not wish to walk

Working Dinner (2)

• Menu

- Appetizer: Soup or Salad [choice]
- Main Course: Chicken Fettuccine, Linguine Bolognese, or vegetarian Ravioli [choice]
- Dessert: Torta Gelato or Almond Torte [choice]
 - also, 2 glasses of house wine and coffee are included in the price
 - if additional beverages are desired, please order these yourself and pay for them separately
- please pay either Wes or me (\$50) if you have signed up to go
 - this cost too is from my personal funds, so, if you signed up, payment is required, even if you change your mind
- Wes and I will have a list of who ordered what and will provide color-coded tickets to simplify serving

Working Dinner (3)

- In order to justify the bus transportation to and from the restaurant on Tuesday, it is necessary to have a “working dinner”
 - there will be a brief discussion after dinner that satisfies this requirement
 - Steve Geer will present his view of “The Path to a Muon Collider”
 - we will be in a public area, not a private room, so acoustics will be far from ideal
 - it will be okay to ask some questions or make (relevant) comments during the talk
 - more detailed discussion should await the wrap-up session on Wednesday

Contact Information

- **Administrative**

- primary: Wes Tabler 510-486-6710 (or 6710 from a Lab phone)
- secondary: Martha Condon 510-486-7135 (or 7135 from a Lab phone)
 - they can help with travel issues, transportation, and the like

- **Scientific**

- primary: Mike Zisman (pager: 510-425-8531; cell: 650-515-0651)
 - any issue requiring a local person
- secondary: Derun Li

- **Internet**

- Visitor or Visitor-A should work (no key required)
- uploads at <http://www.cap.bnl.gov/mumu/conf/MC-090125/upload.html>
